

DECE PROJECT WORK

Submission of Project work

It is clearly mentioned in the Project manual that if Project is being deposited as hard copy it has to be directly sent to MAIDAN GARHI.

That has been the practice since the beginning. I do not know why the learners are depositing at regional centres. It is now up to you whether you will post all of these to SED, IGNOU, New Delhi or you want to return these to the students and tell them to post themselves.

The other option introduced since last session is uploading a soft copy on IGNOU website.. The link is active and students can scan their file and upload up to 100 mB. I would suggest this option as it is easier for us to check when soft copy is uploaded as we can access examiners across the country.

Last time I had guided RC Khanna to prepare a short video explaining how to upload and make the video available on their website. May be you can do the same. It helped the students as uploading which seems simple to us , is challenging for many. It will be helpful if you give some pointers for good scanning in your video.

Procedure for preparing the projects at this point of time

About project work in time of school closure: the revised guidelines were developed and uploaded on IGNOU website in May 2020 itself. These were circulated to RCs as well. I am pasting the link of the revised guidelines again for you.

<http://www.ignou.ac.in/userfiles/8th%20july%20UPDATED%20Revised%20Guidelines%20for%20%20DECE%20%20Project%20Work%20and%20Assignments.pdf>

Organizing counselling Sessions for Project work

The students have to do the project work according to these guidelines. A training of counselors was conducted on 13th August to orient them to new guidelines and RCs were requested to organize counseling sessions. It was clarified that a provision for 10 counseling sessions for Project work exists and this provision should be activated to organize counselling sessions for Project work.

Kindly look at page 14 of the Programme Guide in the link below. <http://www.ignou.ac.in/upload/programme/DECE%20English%20%20%20Programme%20Guide.pdf>

So If counselling sessions are organized before students begin the Project Work and during their duration of doing the Project Work , this will greatly improve the quality of the Project Work submitted, enhancing the pass percentage, which will be good publicity for the programme. This time a lot of copy cases have been reported and counselling is important to caution students against copying.

I am forwarding another email to you which had been mailed to all RDs earlier which has the list of counselors from your region who participated in the 13th August Google Meet organized by SOCE on orientation for counselors for new guidelines. They can be involved in conducting counselling sessions.

Attendance of Counsellors for 13 th August Google Meet for DECE 4, SOCE
